

***Objective: To earn your team the right to be called "Champions!!"***

The bright yellow sun, golden sand and clear blue water - a great environment for your team activity, and a chance to bring everyone together for an extremely enjoyable team experience. With the sand under your feet your group will battle it out to win Gold at the Corporate Challenge Beach Olympics.

## **PROGRAM**

Corporate Challenge's Beach Olympics put aside the maxim 'Its not winning that is important its how you play the game'. On this occasion winning is everything as teams pump up the rivalry in friendly competition.

Team spirit and determination are the keys to success. Each participant will give his or her all to keep the team in the hunt for Gold across a number of different events, each designed to accommodate people of all ages and abilities. The **teams** will fight out for glory over a series of round robin events designed to suit your objectives.

Our inclusive series of team games can be delivered on the beach or on the grass and are all loads of fun! Formatted as a round-robin of events, teams compete against each other with results progressively posted to the record board.

This is an opportunity to compete against each other, against other departments or even against other companies. Teams will strive for performances that will put them into the record books and will make them want to come back next year to do it all again.

As the day concludes our Head Referee will check the record board, announce the winning team and make the awards presentation. "We are the Champions" thunders out as the medals are awarded. It's a tired but happy group that makes its way from the field of play.

Go for Gold!

### **KEY PROGRAM OUTCOMES:**

Fun – Enjoyment – Competition – New experiences – Clear the head
